

28 April 2016

Dear Madam/Sir,

ISQ is organising One day Work shop on “TOPS”.

What is Tops ?

TOPS is Team Oriented Problem Solving. Based on FORD’s 8 – Discipline Approach.

Purpose & Outcome

To develop capability to identify, analyse and find appropriate solutions leading to continuous improvement in Quality of all business and manufacturing processes, using a team oriented approach.

By the end of the course the participant would be able to

- Identify problems and plan for corrective action.
- Solve problem and avoid their recurrence.
- Systematically report the findings.
- Work as an effective team member as well as team leader.

Process

Through presentation, course and Case studies, Participants would be provided

- An overview of TQM and its co – relation with Concepts of Problem Solving Process.
- Need for team approach.
- The art and techniques of discovering problems.
- Use of QC Tools and techniques for problem solving.
- Methodology of conducting meetings and presentation of reports.
- An opportunity to work in a team environment.

Who Should Attend ?

- TQM–coordinators, Management Representatives and others responsible for planning and ushering in the PSP culture and the Quality System approach (ISO 9000 series and QS 9000)in the organisation.
- Members of Quality Improvement teams and others responsible for implementing PSP techniques in the organisation.
