

## Gist of the program

Process excellence in software context makes use of certain principles that involve specific methodologies and terminologies. However, several of these principles of managing process and product quality in software have a relevance much beyond the software development domain.

This talk dwells upon some such key principles which can be leveraged in a wider sense outside the software development domain.

## Profile of the faculty

Hemanta Chandra Bhatt is a business excellence and process management professional with over two decades of experience. He is currently working as the Head of Quality with a Hughes Group company. Hemanta is also a life member of Indian Society for Quality and Quality Council of India. He is highly passionate about improving business systems and processes. He is also deeply interested in economics, finance and investing.

## Qualification:

Hemanta is a Master Black Belt and M. Tech. in Quality from the Indian Statistical Institute.
