Quality Earth Forum (QEF) of Indian Society for Quality (ISQ) since its inception in 2021, initiated programs to promote sustainability through use of quality management principles. The first ever contest of Quality Sustainability Award (QSA) organised by ISQ QEF as a national partner to International Academy for Quality (IAQ) received overwhelming response. QEF is proud to announce that SRF Limited, one of six national winners of QSA was declared winner at international level. More events were conducted to promote collaboration and learning through presentations of QSA projects by national finalists on 1st October 2021 and presentation by national merit winners on 30th October 2021.

QEF is happy to announce its next knowledge sharing session on 8th January 2022, online as detailed below.

It is another opportunity to members, quality and sustainability professionals and people with a passion for sustainability and quality. **The registration is free.**

Abstract:

Hero MotoCorp (HMCL) has exciting journey on sustainability. HMCL is committed to incorporating sustainability into the DNA and all facets of its business, community, value chain and stakeholders encompassing the "We care" philosophy. Guided by Dr. Pawan Munjal's philosophy of "Sustainability is at heart of everything we do", business goals are aligned with SDGs.

Listen from the team that drives sustainability, scientifically driving the initiative, conceptualized and formulated medium & long-term Sustainability strategy for the organization, formulated Climate Scenario mapping of the organization and mapping BAU (Business as usual) & 2DS scenarios in alignment with IPCC.

And efforts enabling organisation to be only motorcycle & scooter company to be part of DJSI Emerging market index.
