presents

QUALITY SUSTAINABILITY AWARD 2022

Indian Society for Quality, in its second year of partnership with International Academy for Quality and Quality in Planet Earth Concerns Think Tank is happy to call for applications for **Quality Sustainability Award 2022 (QSA 2022)** from India.

For Indian contestants, ISQ will hold a domestic contest towards the Quality Sustainability Award 2022.

The winners at the national level will be eligible to contest at the International level.

The award recognizes projects that have led to positive results in sustainability in line with the UN Sustainable Development Goals, using quality management principles and methodologies.

TWO PROJECTS FROM INDIA WERE AWARDED THE GLOBAL IAQ QUALITY SUSTAINABILITY AWARD IN THE LAST TWO YEARS.

2021: Project from SRF Limited

The Conversion of non-usable metalized BOPET film waste into raw material by unique de-metallization and recycling process

2020: Project from Ashok Leyland Limited

Phosphate Sludge Reduction in Cabin Pre-treatment Line at Ashok Leyland in India

CORPORATE OFFICE : 709, Vipul Business Park,, Near Tikri More, Main Sona Road, Gurgaon- 122 018.

To apply for **membership** of ISQ, please write to info@isqnet.org.

Indian Society for Quality QUALITY SUSTAINABILITY AWARD 2022

Introduction to the IAQ

IAQ is an independent, self-supported, non-profit, non-governmental organizations that is administered by a collegial assembly of individuals who have been elected by their peers from among the most respected, active, and experienced protagonists of quality in the world.

Academics make significant personal contributions to the advancement of quality and collaborate on team-based projects through participation in Think Tanks that operate within the Academy. IAQ Think Tanks (TT) are active working research groups created for the analysis of issues focused on specific quality areas and dedicated to consideration and advocacy of alternative approaches for the future development of their focus areas.

Quality in Planet Earth Concerns Think Tank (QiPECTT)

MISSION

Bring Planet Earth Concerns to the mainstream of Quality Management & introduce Quality Management into Planet Earth Concerns.

Chair: Willy Vandenbrande

Vice-Chair: Sunil Sinha (who is also the current Chair– Awards committee, ISQ)

Its members include N. Ramanathan, (past President, ISQ) who founded the Think Tank and was its Chair until 2020. Visit <https://iaquality.org/> for more information.

Introduction to the IAQ Quality Sustainability Award

To improve sustainability is of the highest importance for mankind. Sustainable development has been defined by the United Nations as development that meets the needs of the present generation without compromising the ability of future generations to meet their own needs. The focus is on taking actions to end poverty, protect the planet and improve the lives and prospects of everyone, everywhere.

About ISQ

Indian Society for Quality (ISQ) is a not-for-profit society established in 1996 to fill the need for a national forum for interaction among quality professionals, leaders, practitioners and academics. ISQ is a non-partisan, independent body that attracts and invites individual members from business organizations, health care and educational institutions, government agencies and NGOs. Members share their knowledge and learn from each other. ISQ is thus engaged in both creating and disseminating knowledge.

Its mission is to contribute to the thriving of humanity in a healthy planet.

ISQ is well linked to similar national quality bodies in other countries. It is a board member from its very inception and has represented India in the Asian Network for Quality (ANQ). ISQ is a national partner to International Quality Innovation Award initiated by Laatukskus Excellence, Finland and Quality Sustainability Award promoted by International Academy for Quality. ISQ is the face of India in the world of quality.

Indian Society for Quality

QUALITY SUSTAINABILITY AWARD 2022

About the Award

- The award is for a team carrying out a project, not for the organisation as a whole.
- Applications must be for completed projects by teams which have achieved the desired results in sustainability. Each project should demonstrate application of philosophies, methods, mechanism or techniques of quality.
- Each organization can submit multiple applications. Each application should be for a distinct project or case study.
- Because results from new and more sustainable offerings can take some time to materialize, we accept projects that were not older than 3 years ago, so completed after 01/01/2019.
- The effect and results should relate to one or more of 17 UN Sustainability Development Goals (UN SDGs).
- The methodology used can be based on any form of Quality – TQM, Six Sigma, Lean, philosophies, mechanisms, methods or techniques of quality. Innovative approaches are welcome as long as they reflect Quality Management.
- The award process has been simplified so that it is easy to apply, with minimum documentation.

Sustainable development is achieved in two ways: either customers and consumers start to ask for sustainable offerings and solutions and organizations respond to these requests and focus on the development of sustainable offerings and solutions (y-axis in the figure) or organizations use appropriate and sustainable resources developing these offerings and solutions while constantly using fewer resources and reducing waste (x-axis in the figure).

The purpose of the IAQ Quality Sustainability Award is therefore to identify and share good examples of how quality management principles have been used to develop more sustainable solutions and offerings while also reducing waste and optimizing the use of resources. By sharing such good examples and success stories, the skills to create more result-focused sustainability work will increase and the possibility to link important knowledge and competence within the field of quality management into today's sustainability activities will be increased. Another important purpose is to create a public database of good examples linking quality management to sustainability for future research, learning and benchmarking in order to facilitate leverage.

QUALITY SUSTAINABILITY AWARD 2022

How to Apply?

The projects meeting the criteria mentioned above can participate in the QSA 2022 at national level. Following are the guidelines for the applying.

- Follow the instructions correctly. Please keep in mind that the examiners are not necessarily technical experts in the subject of your project.
- Write clearly and focus on the essence of the project with proven sustainability results in one or more of the seventeen UN SDGs area through quality management principles.
- It is the applicant's responsibility to prove to examining committee on the worthiness of the projects for the award.
- The completed application should be between 2 to 4 pages in PDF format using the prescribed application form. The use of graphs and figures is encouraged
- Applications should be accompanied by one-page summary of work done and result achieved through the project. (examples of one page project summary can be found in website www.iaqaward.com)
- IAQ and ISQ will have the right to use this summary for publication and research.
- A technical report, also called full report, may be added to enable examiners to study the project more deeply. It is optional but it will help examiners understand the project better and can be in any format.
