Project and contact details		
The name of the quality sustainability project (max. 100 characters)		
Contact Person	Telephone +	Email
Organisation(s), country, where the project-members are working, including Web-page links		

Project description
<p><i>Explain the essence of the project, the problem statement, the analysis performed, steps taken, and methodology used. When was it started and when was it completed? What quality methods and tools have been used and why? What are the results achieved and in what way do they support the UN Sustainable Development Goals. <a href="https://sustainabledevelopment.un.org/">https://sustainabledevelopment.un.org/</a> leading towards sustainable development. Mention which UN Sustainable Development Goals in particular, the project supports. <b>(You may delete this support-text in this textbox before submission.)</b></i></p>

Project leverage potential	Picture/image describing the project
<p><i>Describe how you see that the results from the project can be used and leveraged by others. In what way can the project be replicated by others? How and where do you see the project principles and results could be used elsewhere, in other areas or applications/businesses? If the results already have been leveraged to other products, processes, activities, etc. make clear how and what the results are. <b>(You may delete this support-text in this textbox before submission.)</b></i></p>	<p><i>Insert picture/and visual graphic here <b>(You may delete this support-text in this textbox before submission.)</b></i></p>
