Location Sponsor

100 Feet Ring Road, BSK III stage, Bangalore - 85

19th August 2022

TOPS CONVENTION 2022

PES University , Bengaluru

Objective

To promote scientific approach towards problem solving and team work, customer centric approach and technical and soft skills capability enhancement by sharing/ learning through some of the best case studies from organisations of repute.

About Us

Indian Society for Quality (ISQ) is a not-for-profit society established in 1996 to fill the need for a national forum for interaction among quality professionals, leaders, practitioners and academicians. ISQ is a non-partisan, independent body that attracts and invites individual members from business organizations, health care and educational institutions, government agencies and NGOs. Members share their knowledge and learn from each other. ISQ is thus engaged in both creating and disseminating knowledge.

Its mission is to **“Contribute to the thriving of humanity in a healthy planet”**

ISQ is well linked to similar national quality bodies in other countries. It is a board member from its very inception and has represented India in the Asian Network for Quality (ANQ). ISQ is a national partner to International Quality Innovation Award initiated by Laatukskus Excellence, Finland and Quality Sustainability Award promoted by International Academy for Quality. ISQ is the face of India in the world of quality.

TOPS CONVENTION 2022

PES University , Bengaluru

Who can participate?

The competition is open to **Executives/ Supervisors** from OEMs, Tier 1 & Tier 2 companies, process and service organisations applicable to diverse areas of problem solving and it is methodology agnostic. Some suggested area for the Case Studies are New Product Development, Six Sigma, Customer Concern Resolution, Industry 4.0, Quality 4.0 DOE, CSI, 8D methodology, VSM, Life Cycle Assessment and TRIZ.

Those from Karnataka, Tamilnadu(closer to Bengaluru), Kerala, Telangana, Andhra Pradesh and Goa may apply.

The programme details

The competition is subdivided based on the methods/ tools employed during the problem solving as

Basic Problem Solving

Methods include 7 QC Tools, Why Why analysis, 8D Methods, 4M, QC Story etc. Project has moderate level of scope ad complexity such as single defect on specific model or single station. Project has made impact on department or section level KPI.

Advanced Problem Solving

Usage of advanced level tools such as design of experiments, hypothesis testing, Multi-Vari, Good Bad Analysis, Innovation, TRIZ, Lean, TPM or Six Sigma Tools. Project has made impact on company level KPI or department level KPI. Project scope can be one product with multiple defects or multiple products with single defect, multiple process under consideration for analysis.

Note:

- Case studies should be from 2019 to 2020 and later.
- Presentation time: 15 mins presentation and 5 mins Q&A
- Parallel sessions for the presentation of case studies may be organised depending upon the number of entries.

19th August 2022
