The 21st

CONGRESS

2023

Quality transform with AI booming

17(Tue) - 20(Fri) October 2023

Ho Chi Minh city, VIETNAM

Warm Invitation

Lady and Gentlemen!

Welcome to the 21st ANQ Congress in the Ho Chi Minh city, Vietnam

Today, we gather here in Ho Chi Minh City, a vibrantly growing city in the heart of Asia. Our continent, our common home a few years ago was considered the “Plant of the World”, but now it has changed significantly. The growth as well as the position of Asian countries, in some fields of science and technology, leading the world, is undeniable. One of those fields, Artificial Intelligence (AI) is becoming more and more popular and present in social and economic aspects.

“AI for every time, every where”

Most recently, “ChatGPT” (which stands for General Purpose Technology) has become a nightmare for many existing working titles such as graphic/interior designer, scriptwriter, and so on. Especially, after the Covid-19 pandemic, the role of AI and IoT changes the working environment from on-site working to working at home.

Moreover, digitalization continues to develop with an array of “smart things” that brings numerous benefits to the service sector, especially in the public sector when relevant digital information has been transferred. In contrast, its usefulness to the private sector focuses on reducing costs.

With such fragments and extremely rapid changes, quality management in manufacturing, and services would know what to do.

John Narsbitt, business Guru and Author of best seller book title “Megatrend and Megatrend 2000” has cited that all future changes will only make our lives “easier, faster, farther”. Most of the change is not in what we do, but in how we do it.

Within the framework of this ANQ Congress, in this very beautiful and hospitable country, we hope that quality managers in factories, workshops, companies, schools, and scientists will have a lot of excitement to think deeply and broadly, and then share new discoveries, new knowledge to continue helping humanity have a better life. With “AI booming”, what can our community do to confront and empower people, helping them organize and take action wisely.

We looking forward to meeting you this October in Ho Chi Minh City

Nguyen Thi Hoang Lien

VQAH Chairperson

INFORMATION

Technical Topics

ARTIFICIAL INTELIGECE AND DIGITALIZATION

- AI issues and Data Science
- Robotics
- Internet of Things (IoT)
- Cyber Security
- Digitalization

TRADITIONAL QM AND OTHERS

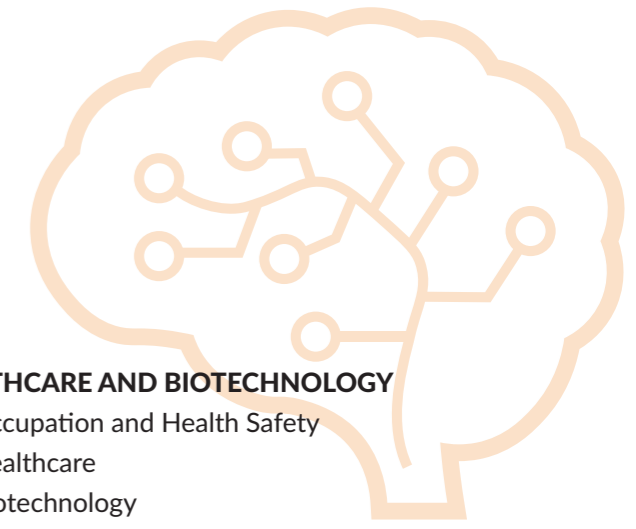

- Manufacturing
- Brand management
- Supply chain managemem
- Governance, Risk managemnet and Compliance
- Education – Government – Leadership

HEALTHCARE AND BIOTECHNOLOGY

- Occupation and Health Safety
- Healthcare
- Biotechnology
- Biomedical Science and Medical Devices

TESTING, CETIFICATION AND ACCREDITATION

- Uncertain and Change managemnet
- Crisis management and Emegency Preparedness
- Testing, certification and Accreditation

ANQ Members

Member Organizations

1. Bangladesh Society for Total Quality Management (BSTQM), Bangladesh
2. China Association for Quality (CAQ), China
3. Chinese Society for Quality (CSQ), Chinese Taipei
4. Dubai Quality Group (DQG), Dubai
5. Hong Kong Society for Quality (HKSQ), Hong Kong
6. Indian Society for Quality (ISQ), India
7. Indonesian Quality Management Associate (IQMA), Indonesia
8. Insitute of Quality Malaysia (IQM), Malaysia
9. Iranian Society of Quality Managers (ISQM), Iran
10. Japanese Society for Quality Control (JSQC), Japan
11. Kazakh Organization for Quality and Innovation Management (KOQIM), Kazakhstan
12. Korean Society for Quality Management (KSQM), Korea
13. Network for Quality Productivity and Competitiveness (NQPCN), Nepal
14. Philippine Society for Quality (PSQ), Philippine
15. Quality and Productivity Society of Pakistan (QPSP), Pakistan
16. Russian Organization for Quality (ROQ), Russia
17. Singapore Quality Institute (SQI), Singapore
18. Sri Lanka Association for the Advancement of Quality and Productivity (SLAAQP), Sri Lanka
19. The Standards and Quality Association of Thailand (SQAT), Thailand
20. Vietnam Quality Association of Ho Chi Minh City (VQAH)

Vietnam Affiliated Member Organizations :

1. Korean Standards Association (KSA), Korea
2. Quality Council of India (QCI), India
3. All-Russian Register (ARR), Russian

Partner Organizations :

New Zealand Organization for Quality (NZOQ), New Zealand
