Indian Society for Quality
presents

QUALITY SUSTAINABILITY *Awards* 2023

Indian Society for Quality, in its third year of partnership with International Academy for Quality and Quality in Plant Earth Concerns Think Tank is happy to call for applications for **Quality Sustainability Award 2023 (QSA 2023)** from India.

For Indian contestants, ISQ will hold a domestic contest towards the Quality Sustainability Award .

The winners at the national level will be eligible to contest at the International level.

The award recognizes projects that have led to positive results in sustainability in line with the UN Sustainable Development Goals, using quality management principles and methodologies.

Four projects from India were awarded **The Global IAQ Quality Sustainability** award in the last three years.

2020

Phosphate Sludge Reduction in Cabin Pre-treatment Line at Ashok Leyland in India

2022

Transformation to Sustainability through Carbon emission reduction in Paint shop by Ashok Leyland, India

2021

The Conversion of non-usable metalized BOPET film waste into raw material by unique de-metallization and recycling process

2022

Build technical capability to produce BOPET films using up to 90% of RPET by SRF Limited, Packaging Films Business, India

CORPORATE OFFICE : 709, Vipul Business Park,, Near Tikri More, Main Sona Road, Gurgaon- 122 018.

To apply for **membership** of ISQ, please write to info@isqnet.org.

Introduction to the IAQ

IAQ is an independent, self-supported, non-profit, non-governmental organizations that is administered by a collegial assembly of individuals who have been elected by their peers from among the most respected, active, and experienced protagonists of quality in the world.

Academicians make significant personal contributions to the advancement of quality and collaborate on team-based projects through participation in Think Tanks that operate within the Academy. IAQ Think Tanks (TT) are active working research groups created for the analysis of issues focused on specific quality areas and dedicated to consideration and advocacy of alternative approaches for the future development of their focus areas.

QiPECTT
Quality in Planet Earth Concerns Think Tank

MISSION
Bring Planet Earth Concerns to the mainstream of Quality Management & introduce Quality Management into Planet Earth Concerns.

The Think Tank works on the process for meeting human communities needs and respective goals in cooperation with ecosystems through restoring the ability of natural systems to continue to provide the resources upon which the social and economic development depend.

Social and economic sustainability should go in harmony with environmental sustainability, that is the exploiting rate of natural systems should not exceed their regenerative capability.

KEY PRINCIPLES

In line with the IAQ Mission The QiPECTT stresses on "Quality for Humanity" and "Compassion for all living beings" in accordance with the IAQ Mission.	Focussing on organizations Recognizing that all stakeholders should play a part in making our environment and societies more sustainable, the QiPECTT will focus on helping organizations to increase their commitment to a more sustainable planet.	Using quality management principles, methods and techniques The QiPECTT adopts the guidelines described in the IAQ Quality Manifesto and will use the rich heritage of theoretical knowledge and practical applications of quality management to contribute to the quality body of knowledge (QBoK) to make shared from Countries, within a balanced view of the three dimensions of sustainability.

INTERNATIONAL ACADEMY for QUALITY

Quality in Planet Earth Concerns Think Tank (QiPECTT)

Chair: Willy Vandenbrande

Vice-Chair: Sunil Sinha (who is also the current Chair- Awards committee, ISQ)

Its members include N. Ramanathan, (past President, ISQ) who founded the Think Tank and was its Chair until 2020. Visit <https://iaquality.org/> for more information.

Introduction to the IAQ Quality Sustainability Award

The Quality Sustainability Award recognizes projects with positive results in sustainability corresponding to the UN 17 Sustainable Development Goals, through the use of quality management principles, methodologies & techniques.

Advantages of participating include:

- ❖ Demonstrate project contribution to sustainability.
- ❖ Inspire others to integrate quality and sustainability.
- ❖ Be recognized for your achievements.

About ISQ

Indian Society for Quality (ISQ) is a not-for-profit society established in 1996 to fill the need for a national forum for interaction among quality professionals, leaders, practitioners and academics. ISQ is a non-partisan, independent body that attracts and invites individual members from business organizations, health care and educational institutions, government agencies and NGOs. Members share their knowledge and learn from each other. ISQ is thus engaged in both creating and disseminating knowledge.

Its mission is to contribute to the thriving of humanity in a healthy planet.

ISQ is well linked to similar national quality bodies in other countries. It is a board member from its very inception and has represented India in the Asian Network for Quality (ANQ). ISQ is a national partner to International Quality Innovation Award initiated by Laatukskus Excellence, Finland and Quality Sustainability Award promoted by International Academy for Quality. ISQ is the face of India in the world of quality.

Indian Society for Quality

QUALITY SUSTAINABILITY

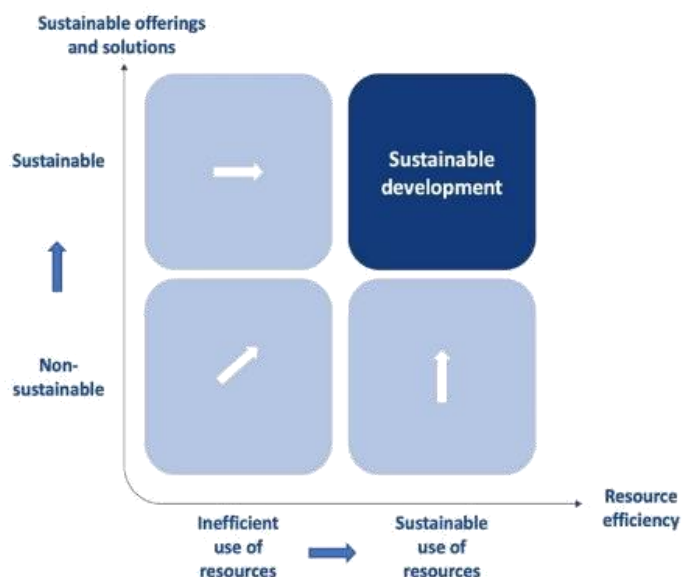

Awards
2023

About the Award

- The award is for a team carrying out a project, not for the organisation as a whole.
- Applications must be for completed projects by teams which have achieved the desired results in sustainability. Each project should demonstrate application of philosophies, methods, mechanism or techniques of quality.
- Each organization can submit multiple applications. Each application should be for a distinct project or case study.
- Because results from new and more sustainable offerings can take some time to materialize, we accept projects that were **not older than 3 years ago, so completed after 01/01/2020**.
- The effect and results should relate to one or more of 17 UN Sustainability Development Goals (UN SDGs).
- The methodology used can be based on any form of Quality - TQM, Six Sigma, Lean, philosophies, mechanisms, methods or techniques of quality. Innovative approaches are welcome as long as they reflect Quality Management.
- The award process has been simplified so that it is easy to apply, with minimum documentation.

Sustainable development is achieved in two ways: either customers and consumers start to ask for sustainable offerings and solutions and organizations respond to these requests and focus on the development of sustainable offerings and solutions (y-axis in the figure) or organizations use appropriate and sustainable resources developing these offerings and solutions while constantly using fewer resources and reducing waste (x-axis in figure).

The purpose of the IAQ Quality Sustainability Award is therefore to identify and share good examples of how quality management principles have been used to develop more sustainable solutions and offerings while also reducing waste and optimizing the use of resources.

By sharing such good examples and success stories, the skills to create more result-focused sustainability work will increase and the possibility to link important knowledge and competence within the field of quality management into today's sustainability activities will be increased. Another important purpose is to create a public database of good examples linking quality management to sustainability for future research, learning and benchmarking in order to facilitate leverage. Visit <http://iaqaward.com/> for more information.

CORPORATE OFFICE : 709, Vipul Business Park,, Near Tikri More, Main Sona Road, Gurgaon- 122 018.

To apply for **membership** of ISQ, please write to info@isqnet.org.

How to Apply?

The projects meeting the criteria mentioned above can participate in the QSA 2023 at national level. Following are the guidelines for the applying.

- Follow the instructions correctly. Please keep in mind that the examiners are not necessarily technical experts in the subject of your project.
- Write clearly and focus on the essence of the project with proven sustainability results in one or more of the seventeen UN SDGs area through quality management principles.
- It is the applicant's responsibility to prove to examining committee on the worthiness of the projects for the award.
- The completed application should be between 2 to 4 pages in PDF format using the prescribed application form. The use of graphs and figures is encouraged
- Applications should be accompanied by one-page summary of work done and result achieved through the project. (examples of one page project summary can be found in website www.iaqaward.com)
- IAQ and ISQ will have the right to use this summary for publication and research.
- A technical report, also called full report, may be added to enable examiners to study the project more deeply. It is optional but it will help examiners understand the project better and can be in any format.
- To upload completed application, one page summary and technical report [click here](#).
