Pocket F, Sector 11, Rohini, Delhi, 110085

13th October 2023

TOPS CONVENTION 2023

Tata Power-DDL Learning Centre, Pocket F, Sector 11, Rohini, Delhi, 110085

Objective

To promote scientific approach towards problem solving and teamwork, customer centric approach and technical and soft skills capability enhancement by sharing/ learning through some of the best case studies from organisations of repute.

About Us

Indian Society for Quality (ISQ) is a not-for-profit society established in 1996 to fill the need for a national forum for interaction among quality professionals, leaders, practitioners and academicians. ISQ is a non-partisan, independent body that attracts and invites individual members from business organizations, health care and educational institutions, government agencies and NGOs. Members share their knowledge and learn from each other. ISQ is thus engaged in both creating and disseminating knowledge.

Its mission is to **“Contribute to the thriving of humanity in a healthy planet”**

ISQ is well linked to similar national quality bodies in other countries. It is a board member from its very inception and has represented India in the Asian Network for Quality (ANQ). ISQ is a national partner to Quality Sustainability Award promoted by International Academy for Quality. ISQ is the face of India in the world of quality.

To know more, please visit www.isqnet.org

Who can participate?

The competition is open to **Executives/ Supervisors** from OEMs, tier 1 & 2 companies, process and service organisations from north and eastern Indian States. It is applicable to diverse areas of problem solving and it is methodology agnostic. Some suggested area for the Case Studies are New Product Development, internal and external Customer Concern Resolution, Productivity improvement, cycle time reduction, process capability improvement, improvement in MTBF, MTTR etc.

13th October 2023

TOPS CONVENTION 2023

Tata Power-DDL Learning Centre, Pocket F, Sector 11, Rohini, Delhi, 110085

The programme details

The competition is subdivided based on the methods/ tools employed during the problem solving as

Basic Problem-solving

Methods include 7 QC Tools, Why Why analysis, 8D Methods, 4M, QC Story etc. Project has moderate level of scope ad complexity such as single defect on specific model or single station. Project has made impact on department or section level KPI.

Advanced problem-solving

Usage of advanced level tools such as design of experiments, hypothesis testing, Multi-Vari, Good Bad Analysis, Innovation, TRIZ, Lean, TPM, Six Sigma Tools. Project has made impact on company level KPI or department level KPI. Project scope can be one product with multiple defects or multiple products with single defect, multiple process under consideration for analysis.

Note:

- Case studies should be from FY 2021- 22 and later.
- Presentation time for both basic and advanced problem-solving projects will be the same with 15 mins for presentation, and 5 mins for Q&A.
- Parallel sessions for the presentation of case studies will be organized. Number of parallel sessions will be decided based on the number of entries.

Awards & Recognition

- 3 best case studies will be awarded from each of Basic and Advanced problem-solving projects. These may be subdivided further in to manufacturing and service sectors depending upon the applications received.
- All the participants are eligible for the Certificate of Appreciation for Participation.

13th October 2023
